EDMONTON, January 3rd, 1907.

To His Honour,

GEORGE HEDLEY VICARS BULYEA,
Lieutenant Governor of Alberta.

MAY IT PLEASE YOUR HONOUR:

The undersigned has the honour to present to Your Honour the report of the Deputy Provincial Secretary and Registrar of Joint Stock Companies for the sixteen months ended December 31, 1906.

Respectfully submitted,

W. T. FINLAY,
Provincial Secretary.

EDMONTON, December 31, 1906.

THE HONOURABLE W. T. FINLAY,
Provincial Secretary,
Edmonton, Alta.

SIR,—I have the honour to submit herewith the report of this department for sixteen months terminating December 31st, 1906.

Although its work being so largely of a record and registration character, it is not perhaps so much in evidence before the general public as that of other branches of the executive, this department in the volume of its transactions for the past sixteen months fully reflects the prosperity and progress of the country. This is especially shown in the great number of companies incorporated under The Joint Stock Companies Ordinance and of Foreign Companies which sought registration under The Foreign Companies Ordinance during the past sixteen months.

As this is the first report to be presented by this Department since Alberta attained her provincial status, it is, therefore, impossible to make any comparisons with the volume of business done in previous years. The only basis of comparison which it is possible to make is with the volume of business done in the Territorial Secretary's Department under the old Territorial regime, and while I have been unable to get any very definite statistics, sufficient has been secured, however, to warrant the statement that an infinitely larger volume of business has been done in this department in Alberta than was transacted in the same department for the whole of the North-West Territories during any previous similar period, and while Alberta's population, which is to a great extent the basis of any province's business capacity, is considerably smaller than the population of her sister province of Saskatchewan, I think I am right in saying that a greater volume of business has been done by this department than was done by the same department in Saskatchewan for the corresponding period. Thus I think the claims for provincial rights as put forth by both provinces were fully justified and are being amply exemplified by results.

A statement of the revenue collected during the past sixteen months, the sources from which it has been collected together with a comparative statement of the revenue collected from the same sources under the Territorial regime, during the years 1901, 1902, 1903 and twenty months, 1904-5, is herewith presented for your information:

The duties of the Registrar of Joint Stock Companies being practically distinct from those of Provincial Secretary I have deemed it wise to make the reports also in separate form.

The various Ordinances and Acts coming directly under the jurisdiction of your department are as follows:

CERTIFICATES UNDER PROVINCIAL SEAL.

Ninety certificates under the seal of the department were issued since September the 1st, 1905.

These certificates are issued to confirm the appointments of persons holding commissions to take depositions for use in the courts of the province or elsewhere. In no case has the validity of these certificates been challenged, being readily accepted by courts in the United States and in some cases in courts of different countries of Europe. Alberta, being populated as it is with people from almost every nation in the world, who all have more or less business to transact in the courts of the country from which they came, it is, I think, a mark of recognition to have these certificates so readily accepted by the courts of foreign countries.

MARRIAGE LICENSES.

The revenue collected for the sale of marriage licenses amounts to \$2,554.00; this sum is only \$679.00 less than was collected in the whole of the North-West Territories for the previous twenty months. While the number of marriage licenses thus issued is a very good indication of the number of marriages that have taken place in the province, it cannot be accepted as covering all the marriages solemnized, for many are married by banns. Altogether 852 licenses were issued during the sixteen months, being 43 for the four months of 1905 and 809 for the year 1906.

AUCTIONEERS' AND PEDLERS' LICENSES.

This is another branch of the department that, like all other branches, shows a remarkable expansion. During the past sixteen months 97 auctioneers' and 13 pedlars' licenses were issued by the

department; this number in both cases is almost equal to the number issued previously for the whole of the Territories.

VETERINARY SURGEONS ORDINANCE.

Until the Acts of the Legislature of Alberta received the assent of His Honour the Lieutenant Governor on May the 9th last, the administration of The Veterinary Surgeons Ordinance was under the jurisdiction of this department. At the session of the Legislature referred to, however, a Veterinary Surgeons Act was passed by which the issuing of licenses to practise veterinary surgery was placed in the hands of the Provincial Veterinary Surgeons' Association and the responsibility of administering the Act divided between that body and the Department of Agriculture. With the passage of the Act referred to this department therefore ceased to issue licenses. Prior to the change above indicated only 4 licenses to practise veterinary surgery were issued by the department. Now that a Veterinary Surgeons' Association has been formed I think the provisions of the Act will be more rigidly enforced.

CEMETERIES.

The administration of The Cemeteries Ordinance is also vested in this department and during the past year several companies have taken advantage of its provisions and become incorporated. There is no revenue derived from the incorporation of companies of this nature.

DAIRYMEN'S ORDINANCE.

Under the provisions of the Dairymen's Ordinance several new butter and cheese manufacturing companies have been incorporated. This has doubtless been largely stimulated by the liberality shown by other branches of the Government in assisting all companies incorporated under the provisions of this Ordinance to market their product at the best possible price and by assistance rendered in other ways. In nearly every case a ready disposition is shown by the incorporators to comply fully with the provisions of the Ordinance in furnishing the department with the required returns and furnishing all other necessary information.

LIBRARY.

One of the most important branches of work that has been carried on by your department during the past year, has been the establishment of a library. On account of lack of sufficient accommodation this work has been of a very limited nature, but at the same time there has been procured from almost every country in the world reports which are most interesting, and which to-day form the nucleus of what will in time be a most valuable adjunct to the other branches of the Government. Only a limited appropriation was made at the last session of the Legislature for library purposes,

amounting to only \$750 in all, and a good portion of even this limited sum is still unexpended. Several sets of encyclopædias have been purchased and the principal newspapers of the Dominion have been subscribed for, including all the newspapers published in the province. The principal publications are being bound yearly, and stored away in the archives of the province for future reference. A complete list of all publications received during the year will be found in the appendix. I would like to take this opportunity of thanking the Governments of the various countries who have so generously and liberally responded to our request for copies of their various Statutes, etc., and in this respect if I may do so, I would like to make special mention of the especial willingness displayed in this connection by the various States of the American Union.

AUTOMOBILE ACT.

At the session of the Legislature of 1906 an Act was placed on the Statutes regulating the speed and operation of motor vehicles on public highways within the province. By this Act no motor vehicle may be driven at a greater speed than ten miles an hour within the boundaries of a municipality nor at a greater speed than twenty miles an hour on country roads. The Act also contains other valuable clauses which, while they do not bear hardly on the owners of the vehicles, they will tend to safeguard the public generally from accidents. The administration of this Act was placed with your department and I am happy to say that its provisions are being pretty generally enforced and abided by. During the time the Act has been in force some 41 licenses have been issued to the owners of motor vehicles in the province.

There are a number of other Ordinances such as the Livery Stable Keepers Ordinance which are under the jurisdiction of your department. These do not call for any special mention as there are no records kept in connection with them and the work attached to them is merely of an administrative character.

A list of Imperial proclamations issued during the year will be found in the appendix, as also will a list of proclamations issued by you under command of His Honour. These are principally proclamations announcing the incorporation of a number of towns in the province. In this connection I might here say, that no better evidence could possibly be adduced of the remarkable development that is taking place in the province generally than by the demands that are being made by the various centres of population for increased powers. Some of the places now enjoying the distinction of full-fledged towns were not in existence eighteen months previous to their incorporation.

A large number of commissions were issued during the year appointing notaries public, justices of the peace, and commissioners for taking affidavits both within and without the province. A complete list of those to whom commissions were issued will also be found in the appendix.

The work of the department has been conducted since the induction of the province with a certain amount of difficulty in

the way of accommodation and being shorthanded in the way of insufficient clerical assistance; the latter is a direct outcome of the former and it will be necessary to secure additional accommodation and also additional clerical assistance to cope with the daily increasing volume of work that is being done by the department if proper care and attention is to be given to the hundreds of records now demanding the care and attention of this important branch of the Government of the Province of Alberta.

Respectfully submitted.

I have the honour to be, Sir,

Your obedient servant,

HAROLD W. RILEY,

Deputy Provincial Secretary.

REPORT

OF THE

Registrar of Joint Stock Companies for the Years 1905-6

OFFICE OF THE REGISTRAR OF JOINT STOCK COMPANIES,
EDMONTON, December 31, 1906.

HONOURABLE W. T. FINLAY,
Provincial Secretary.

SIR,—I have the honour to hand you herewith a report of the business transacted by this branch, for the sixteen months of 1905-6 terminating on the 31st inst. The number of companies incorporated under the provisions of The Joint Stock Companies Ordinance and the number of foreign companies registering under the provisions of The Foreign Companies Ordinance proves beyond a doubt that, as a field for investment and operation Alberta has attracted the attention of capital from all parts of the world. Altogether 161 companies were incorporated under the provisions of The Joint Stock Companies Ordinance representing an aggregate capitalization of \$18,552,005, and 60 foreign companies have become registered under the provisions of The Foreign Companies Ordinance representing an aggregate capitalization of \$52,405,000.00.

The companies incorporated in the province were organized for carrying on all branches of industry but principally, I think, with the object of developing some of the great natural resources, of which the province seems so bountifully blessed by Providence. The great coal and oil deposits of the southern and northern portions of the province have attracted the attention of capitalists to a considerable degree and several large companies have been incorporated with a large capitalization to develop these most profitable natural resources.

I am happy to say that in the majority of cases the provisions of the Ordinance, which requires all companies to furnish the department with certain annual returns, have been complied with, and these returns are now all on file in the department. The number of joint stock companies now in existence in the province is 391; of this number 161 have become incorporated since Alberta became a province. A classified statement of the companies incorporated together with the objects of incorporation will be found in the appendix.

As you will note a large number of foreign companies have become registered during the past sixteen months, and these with the number previously registered in the Territories makes 345 foreign companies who now have established agencies in the province. This does not by any means signify that these are the only companies operating in the province, for in very few cases indeed is registration made voluntarily by any company; and it is only by the very closest vigilance on the part of the department, and after, in some cases, the fine prescribed by the Ordinance is threatened to be imposed, that registration is finally made. As a remedy, for this breach of the Ordinance I think the appointment of an inspector, whose principal duty would be to visit all parts of the province periodically

and compel all companies found carrying on business in contravention to the Ordinance to become registered, would prove effective. When not otherwise employed the services of the inspector could be utilized in the office. A list of foreign companies registered during the sixteen months will be found in the appendix.

I think legislation should also be enacted regulating the operation of fraternal societies. The majority of such organizations carry on an insurance business, and I am of the opinion that some returns of the business done by each organization should be furnished to the department. The registration fee in respect of fraternal organizations is only \$50.00, so I don't think there is any ground for complaint in this regard, especially when it is considered that many of the life insurance companies pay as high as \$350.00 to conduct practically a similar business in the province.

During the year certain defects in The Joint Stock Companies Ordinance have been noted, and with the aid of the Deputy Attorney General some proposed amendments have been drafted which the Legislature at its present session will be asked to ratify. The amendments are of a technical but at the same time important character, and will tend to both simplify and strengthen certain portions of the present Ordinance.

The rapidly increasing volume of work in this branch of your department, like many other branches, demands both increased accommodation, and increased clerical assistance. Although since the establishment of the province the work of the department has been performed under certain difficulties, it has been successfully carried on, satisfactory, I think, to both the Government and the public generally.

Respectfully submitted,

I am, Sir, your obedient servant,

HAROLD W. RILEY,
Registrar of Joint Stock Companies.
